Wednesday Walk in Reserve near St Paul's Church, Ballalaba - 17 November 2010

The reserve and church are on the Krawaree Road, not very far from Braidwood. The reserve is fairly small but very diverse. There is a small grassland, no doubt where parishioners park, then woodland with a mixed understorey. Many plants were flowering including *Pultenaea subspicata* (a mixture of colours), *Gompholobium minus, Laxmannia gracilis, Stylidium* (maybe armeria ?), *Hibbertia obtusifolia Microtis unifolia, Diuris sulphurea* and one *D. semilunulata.*
