

Wednesday Walk in Cavan Travelling Stock Reserve – 12 October 2011

Cavan Travelling Stock Reserve is on Mountain Creek Road, fairly close to Yass and Wee Jasper. It is 12 ha in size and is comprised of quite dense woodland with a fairly prolific understory and not much grass. There were some wonderful *Eucalyptus albens*, *E. blakelyi*, *E. macrorhyncha* and, new to our list, *E. rossii*. There had been a good display of *Acacia paradoxa*, a few flowers still to see. Also, lots of *Stypandra glauca*, *Pultenaea spinosa* just starting, *Dillwynia sericea*, *Daviesia mimosoides*, *Brachyloma daphnoides*, *Glycine clandestina*, *Leucopogon virgatus*, *Bossiaea buxifolia*, *Hardenbergia violacea*, *Hibbertia riparia* - one stunning plant covered in flowers and a few others in bud, both indigoferas flowering profusely – *I. australis* and *I. adesmiifolia*, *Calytrix tetragona*, *Pomaderris angustifolia* and *Ajuga australis* in bud and a few orchids - *Petalochilus fuscatus*, *P. carneus*, *Pterostylis nutans*, *P. pedunculata*, *Diuris pardina* and some *Thelymitra* sp. buds. We added many new species to our list.
