

As there will be no formal ANPSC Native Plant Sale this Spring, the following plants are available from now on (until sold out), direct from the grower(s) listed in the row adjacent to the plant name. Please make contact with the individual growers, and negotiate a mutually acceptable way to purchase plants, or see ordering information in the links. Prices may differ between growers. Good luck with finding the plants you are after! Sorry, the links only work in the excel version of the list. Linda Tabe, ANPSC Plant Sale Coordinator, September 2020.
