

Wednesday Walk – Rocky Pic Fire Trail, Tallaganda National Park – 30 April 2008

The Rocky Pic fire trail runs from the Braidwood Road (Captains Flat to Krawaree Rd) to Harolds Cross Rd along the Dividing Range through Tallaganda National Park and Tallaganda State Forest. We drove from the southern end and made several roadside stops where plants took our interest, including walking up the steep track to the trig – Rocky Pic. Plants of interest were *Pittosporum bicolor* with its orange seed, *Acrotriche divaricata*, *Leucopogon lanceolata*, *L. gelidus*, *L. hookeri* and *Xerochrysum bracteatum* still flowering.

Plant List for Rocky Pic Fire Trail – 30 April 2008

? indicates that those present were unsure of the plant name

Southern end – 1st stop

Acacia melanoxylon
Austrodanthonia sp.
Austrostipa sp.
Chiloglottis sp. ?
Choretrum pauciflorum
Daviesia ulicifolia
Dianella tasmanica
Dichelachne sp. ?
Eucalyptus dives
Eucalyptus radiata

Gonocarpus tetragynus
Leucopogon lanceolata
Lomandra longifolia
Notolaea sp. ?
Poa meionectes
Polyscias sambucifolia
Pultenaea subspicata
Stylidium graminifolium
Tasmania lanceolata
Xerochrysum bracteatum

Ridge top – 2nd stop – in addition

Acacia dealbata
Acacia gunnii
Acrotriche divaricata
Arrhenechthites mixta
Cassinia longifolia
Daviesia mimosoides
Goodenia hederacea ssp. alpestris

Hibbertia obtusifolia
Lomatia myricoides
Monotoca scoparia
Smilax australis
Tetratheca ericifolia
Viola betonicifolia
Viola hederacea

3rd stop - fire trail entry on right – in addition

Brachyscome spathulata
Clematis aristata
Comesperma ericinum
Coprosma hirtella
Derwentia perfoliata
Eucalyptus pauciflora
Eucalyptus viminalis
Geranium sp.
Helichrysum rutidolepis
Leucopogon hookeri

Leucopogon fletcheri ssp. brevisepalus
Leucopogon gelidus
Microlaena stipoides
Oreomyrrhis eriopoda
Poranthera microphylla
Pteridium esculentum
Stackhousia monogyna
Stellaria pungens
Veronica plebeia
Wahlenbergia sp.

4th stop – in addition

Australopyrum pectinatum
Coprosma quadrifida
Cotula sp.
Eucalyptus sieberi
Lagenophora stipitatum
Pimelea ligustrina

Pittosporum bicolor
Poa helmsii
Pomaderris aspera
Pratia pedunculata
Ranunculus ? scapiger
Xerochrysum bracteatum

5th stop – track to trig – in addition

Bursaria spinosa
Crassula sieberi
Hydrocotyle laxiflora
Leptospermum myrtifolium

Luzula sp.
Monotoca elliptica
Oxylobium ellipticum
Persoonia silvatica

Final stop – Main Range Rd – in addition

Olearia erubescens
Stylidium ? armeria

Thelionema caespitosa
