Hall Markets
Showgrounds, HALL ACT
Held on first Sunday of
month. Diverse range of
stalls including some selling
native plants.

**Murrumbateman
Village Market**
Recreation Grounds,
MURRUMBATEMAN, NSW
Held on 2nd & 4th
Saturdays. Farmgate Natives
attends these Markets.

WEED SWAP

The WEED SWAP program now utilises online reporting. Participants send photos of invasive plants from their gardens to the iNaturalist project website.

The Weed Swap rewards will be operating through a local nursery.

The ACT Parks and Conservation Service will be operating the new program. Queries can be sent to InvasiveWeeds@act.gov.au

FETES & OPEN DAYS, TRASH & TREASURE MARKETS

Fund-raising ventures for a range of organisations including schools & individuals. Easily propagated plants may be on sale. If buying, ensure plants are not environmental weeds or invasive species. Plants need to survive Canberra's climate.

includes plant guides.

WHERE TO BUY AUSTRALIAN NATIVE PLANTS IN THE CANBERRA REGION

This brochure lists some sources of Australian native plants in the Canberra region. It does not claim to be completely comprehensive, or to imply endorsement by ANPSC of any of the businesses mentioned. Please check the individual web sites of businesses for the latest information.

This listing of the diverse sources of native plants is dedicated to those who have studied, propagated, promoted and enjoyed Australian native plants of and in the ACT region for many decades.

Their experiences reveal that higher success rates can be achieved by:

- choosing the right site & aspect for the plant
- researching species' needs and water requirements
- thorough site & soil preparation.

Planting small, healthy plants will often surpass expectations from larger specimens bought for instant effect.

Compiled by the Australian Native Plants Society
Canberra (ANPSC)
